

### **Private Soccer Lessons**

Private training from a UC Riverside Division 1 athlete. I have great experience. I played with one of the best club teams in the country, Arsenal FC, during my senior year of High School. I will be entering my third season as a Division 1 athlete, this fall. For the past two years I have been playing in the semi-professional USL-20 league, with Everton FC's u20 and u23 team. I have international experience, playing in both Brasil and Mexico. If you are looking to get physically fit or be better technically and tactically, I am qualified in all areas. I am looking to train players who wish to improve in all aspects of the game. There is no experience requirement, **ALL** players are welcome. I offer individual and group training. I will provide the equipment for training.
